

INTERPACK 2023

Interpack, the mother of all exhibitions for the food processing and packaging industry, will take place from 4th to 10th May, 2023 in Düsseldorf, Germany. The main focus of Interpack is on packaging materials, packaging machines and related process technology for the food, beverage, confectionery, bakery, pharmaceutical, cosmetics, non-food and consumer goods' sectors. This Exhibition is a global trendsetter in technological advances. From sustainability to digitalisation; what will be reality tomorrow is presented here today. **This is what makes interpack simply unique.**

SweetConnect® is the first digital platform specifically developed for the efficient and profitable production of confectionery by the combined effort of Theegarten, Sollich, WDS, OKA and Chocotech. SweetConnect® has been developed for the efficient and profitable production of your company as it digitalizes the users' entire workflow and gives you the tools to make your confectionary production a more efficient, predictable and profitable process. SweetConnect® uses real-life data to optimise your production and is compatible with machines from any manufacturer. The aim of the company is to create one tool to access key-information, production figures and reports, to identify potentials for optimizations and to increase the profitability of your business. Performance optimization, quality assurance, cost & waste reduction, downtime prevention, and KPI comparison are made available to the user based on real-life data, making your production process work like clockwork. With SweetConnect® you can start solving problems before they appear, with their proactive monitoring system that automates maintenance routines and provides key-information at the right time to improve availability and efficiency.

Information and display of “SweetConnect®”, will be showcased at Interpack 2023.

PRINCIPAL BOOTH DETAILS

Our Long standing partners and principals will display their latest machines at
Interpack 2023
