

An Interactive Workshop on Foreign Trade Policy with Mr. Sudhakar Kasture

A workshop to remember. Mr. Sudhakar Kasture conducted an interactive workshop on *Foreign Trade Policy*(FTP) for the entire team of **Vedic Pac Systems**. During the session, Mr. Kasture provided an overview on the FTP, Export Promotion Capital Goods (EPCG) Scheme, Import Procedures, documentation and customs clearance, Terms of shipment: Incoterms, FTA (free trade agreements, especially with Schengen/Germany & Korea).

Mr. Kasture holds a Masters degree in Foreign Trade (M.F.T) and is an International Trade Consultant with an experience of over four decades. He currently heads the EXIM Institute, that provides training in the field of International Trade.

Mr. Kasture has been an Advisor/Consultant to established corporations such as Hindustan Unilever, Siemens, Godrej, Blue Star, BKT, Essar Oil Ltd., MRPL, BPCL, Godrej Industries Ltd., Marico, Huber Group (India), Century International, Raychem RPG, Vedanta Group, ThyssenKrupp, Welspun Group and many more. His guidance can help companies in penetrating export markets and also for import benefits.

Mr. Kasture can be reached at exim@helplineimpex.co.in

Some memories from the workshop:

Vedic Pac Systems recently installed an **AZO Liquids** Batch Vacuum processing plant *BG 800* in the north western region of India for the production of mayonnaise. The BG vacuum processing plant ensures high & uniform product quality with the shortest batch cycle time. Dry and liquid ingredients or combinations of liquid ingredients can be mixed, dispersed & emulsified. A well conceived design of AZO LIQUIDS processing plant sets it apart from all conventional systems

The logo for AZO LIQUIDS, featuring the word "AZO" in a large, bold, black sans-serif font with a registered trademark symbol, and the word "LIQUIDS" in a smaller, black sans-serif font below it, all contained within a white circular background.

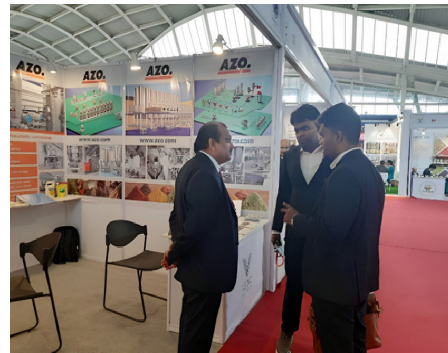

Features:

- Modular design
- Advanced homogeniser
- Patented pump mode for gentle product handling
- Separation of the processing and supply units
- Machine frame in expandable honeycomb design
- Design compliant with FDA and EHEDG regulations
- **BG 800 can be used for producing sauces, mayonnaise, ketchup, soups, chocolate fillings, liquid doughs, marinades and dressings**

Vedic Pac Systems at the World Spice Congress 2023.

Vedic Pac Systems, alongwith their long standing partners **AZO & AMIXON**, recently participated in *World Spice Congress 2023*. We showcased the vertical single shaft mixer type VM 300 from AMIXON & the dosing system type AZODOS from AZO. Both systems are widely used in the Indian spice industry. Some memories from the event.

**28th November ~ 30th November
(Tuesday ~ Thursday)**

**Hall 12, F27
India Expo Center, Greater
Noida**
