

Boots on the ground: Engineers from Vedic Pac Systems participated in training at CAMA.

As part of building capabilities on the ground, Vedic Pac Systems sent our engineers to Italy for FAT & training on CAMA machines. As part of the training module, our team was exposed to the latest machines from CAMA, from cartoning systems to case packers.

Now, we are equipped to do most of the installation activities starting from placement of the lines, utility connections, cabling & wiring, I/O checks to start up.

Some of the key benefits are:

1. Presence in India for quick & immediate response for the entire South Asian region.
2. Significant savings in costs (our charges are a fraction of the costs of a supervisor from Europe).
3. AMCs/asset care post acceptance
4. And last, but not the least, a clear advantage in project conceptualisation & sales.

Some photos from the visit...

Gulfstream: Showcasing the best at the Gulfood Manufacturing 2023

Our partners/principals **CAMA, Chocotech, Extrufood, Hebenstreit, Makrev, OKA, Sollich, Theegarten Pactec** and **WDS** showcased innovative solutions at **Gulfood Manufacturing** in Dubai.

Gulfood Manufacturing is now considered one of the strongest platforms to showcase latest technology & innovations pertaining to the food industry.

Sales Managers from Vedic Pac Systems travelled to Dubai to support our principals/partners in discussions with our key accounts.

Some memories from the show...

Safety Meets Innovation: ATEX Compliant AZO Starch Handling System Installed in Orai, UP, India

Vedic Pac Systems successfully installed an advanced **AZO Starch handling system** in Orai, North India. This system streamlines starch handling process, from conveying and silo filling to automatic batching & mixer feeding.

AZO's comprehensive solution includes big bag unloading, screening, feeding, conveying, silo filling, automatic weighing, batching, and seamless feeding to the mixer. Designed in compliance with the latest ATEX rules and explosion proof standards, this installation represents AZO's commitment to safety and innovation.
