

Vedic Pac Systems (A member of AZO Group)

It is a privilege & a honour to announce that **Vedic Pac Systems** is now a member of the **AZO Group**. A development that brings plenty of cheer to our team, our partners/principals & most importantly, our key accounts & customers.

As an initial step, Vedic Pac Systems will move, with a bigger team, into a new office in Koregaon Park starting 1st September, 2024. AZO also plans to implement a policy of local sourcing for the entire region (South Asia & Middle East) & add to the service team, to make our equipment more competitive. This would not only benefit our key accounts/customers but would also be a game changer for our partners & principals.

We would be exhibiting at the ANUGA in Mumbai with most of our principals (**AZO, BSA, CAMA, CHOCOTECH, HEBENSTREIT, OKA, SOLLICH, THEEGARTEN PACTEC, VORMENFABRIEK & WDS**) & look forward to welcoming you at the show for an update on this new & exciting chapter in our journey.

An invitation to visit us at Anuga FoodTec, India

Vedic Pac Systems has been at the forefront of the beverage, dairy & food industry for four decades. We provide premium quality equipment and solutions for bakery, beverage, chocolate, confectionery, dairy, snack food & spice industries. Our strong partnership with Europe's leading equipment manufacturers, along with a dedicated engineering and after sales team, enable us to deliver world class solutions tailored to meet our customers' precise needs.

We request your presence at **Anuga FoodTec India**. Partner with us to discover perfect solutions for you!

Innovation with Vedic Pac Systems at Anuga FoodTec India

Vedic Pac Systems will be showcasing its latest innovations from its' European partners at the Anuga FoodTec India exhibition. We cordially invite you to visit our stall and explore our premium solutions for the food, chocolate and snack industry.

Machines on display:

1. AZO Screener DA 360

- **Type:** Cyclone/rotary sifter
- **Purpose:** Used for separating and classifying bulk materials based on size.
- **Features:** Efficient and gentle screening process, adjustable vibration intensity, and easy to clean.
- **Applications:** Suitable for various industries including food, pharmaceuticals, chemicals and plastics for sieving powders, granules and other bulk materials.

2. AZO DOS

- **Type:** Dosing System
- **Purpose:** Precise dosing and weighing of bulk materials.
- **Features:** High accuracy, customizable configurations, integration with automated systems and user-friendly interface.
- **Applications:** Ideal for industries that require accurate dosing of ingredients such as food production, chemical processing and pharmaceuticals.

3. Amixon Mixer - VM 300

- **Type:** Vertical Mixer
- **Purpose:** Mixing and blending powders and granules.
- **Features:** Gentle and thorough mixing, vertical design for efficient space use, easy to clean, and customizable for various batch sizes.
- **Applications:** Used in the food, pharmaceutical, and chemical industries for mixing dry materials.

4. Chocotech patented Princess Ecograv

- **Type:** Gravimetric batching & dissolving System (without water)
- **Purpose:** Continuous production of confectionery masses with precise ingredient dosing.
- **Features:** Energy efficient, precise ingredient measurement and integrated cooking process.
- **Applications:** Confectionery industry for making products like caramels, hard boiled candies, jellies & toffees with consistent quality and efficiency.

5. Sollich Minicoater

- **Type:** Coating Machine
- **Purpose:** Small scale coating of bakery & confectionery products.
- **Features:** Compact design, easy to operate, suitable for small batches and precise control of coating thickness.
- **Applications:** coating of wafers, biscuits, health bars and other confectionery items.

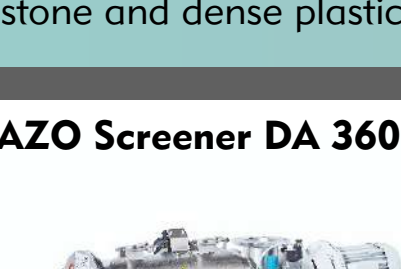

6. Sollich Tempermeter E6

- **Type:** Chocolate Tempering Measurement Device
- **Purpose:** Measures the tempering index of chocolate to ensure it is in the right condition for moulding or enrobing.
- **Features:** Accurate temper measurement, easy to use, quick results.
- **Applications:** Essential in chocolate production for ensuring optimal texture, gloss and sound of the final product.

7. Loma C X5C X-ray Inspection System

- **Type:** X-ray Inspection System
- **Purpose:** Detects contaminants and foreign objects in packaged products.
- **Features:** High detection sensitivity, compact design, easy integration into production lines and user-friendly software.
- **Applications:** Food industry for ensuring product safety by detecting contaminants such as metal, glass, stone and dense plastic in packaged food products.
