

CMETRAYS

SUPPLYING THE WORLD FOR OVER 50 YEARS

CME Trays are a high strength customised design product

FEATURING:

- **Lightweight strength:** ribbed underside increases rigidity while reducing mass
- **Runs reliably:** integrated running pads designed for mogul conveying/return systems
- **Hygienic by design:** one-piece compression moulding reduces seams and crevices where residue can build up
- **Faster handling:** four-way interlocking feet improve stack stability and de-stacking efficiency
- **Cost effective:** built for long service life to reduce replacement and downtime

**SIGNIFICANT SAVING
OVER WHOLE OF LIFE**

FEATURES

REINFORCED.
PLASTIC MATERIAL STRENGTHENED

OPTIMIZED.
HIGH QUALITY STANDARDS

RESISTANT.
ENGINEERED FOR DURABILITY

CERTIFIED.
FOOD-SAFE MATERIAL

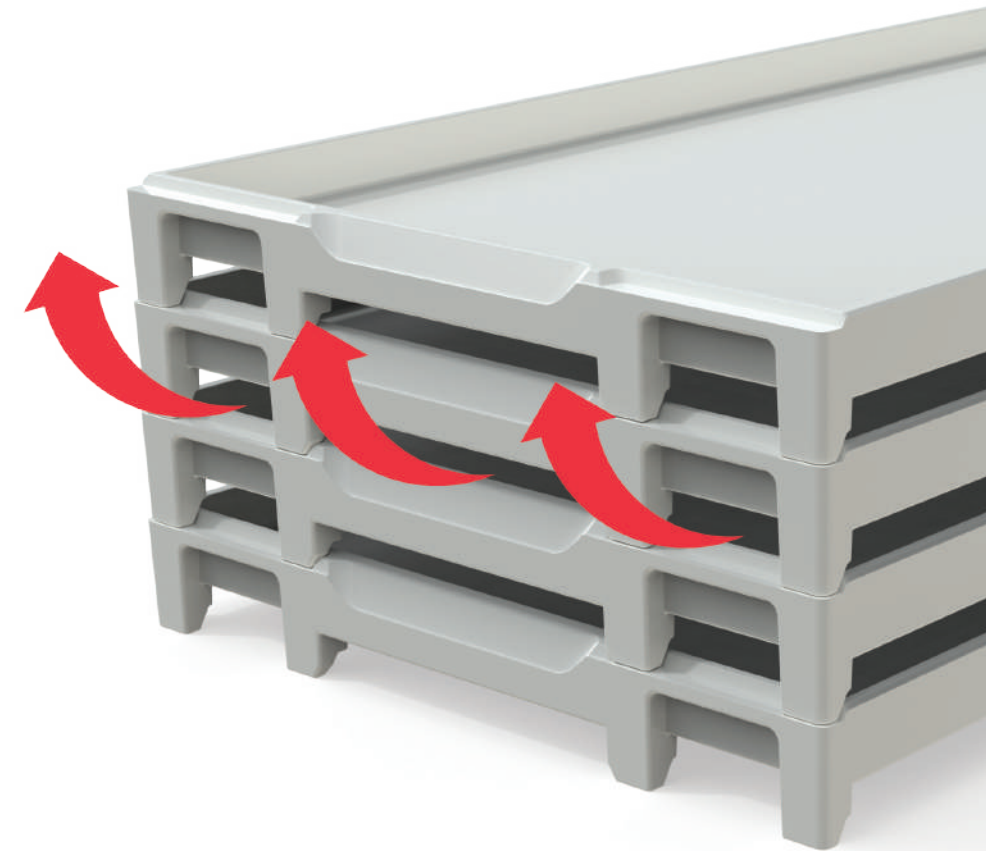

New Tray Design 2026

New Tray Geometry + Stack/Underside Design

FEATURES:

- Improved airflow through stacks
- Lighter weight: easier manual handling and lower shipping/handling costs.
- Better cost efficiency
- Design registration completed

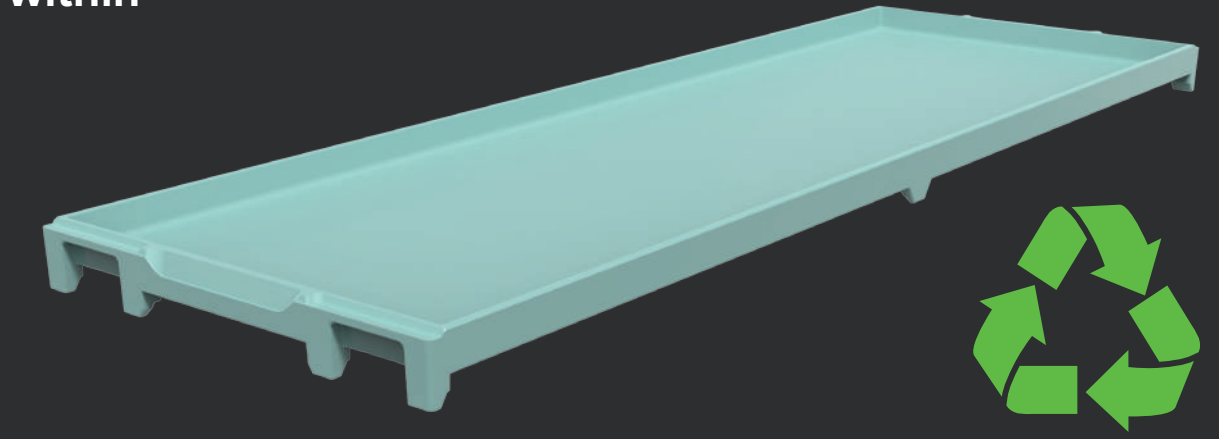

New Tray Material – ReNatura 2026

Launching as a new material option within the CME TRAYS portfolio

FEATURES:

- New ReNatura material
- Recycled content
- Food-grade approved
- Our greenest material yet

World Class Facilities

Advanced In-house Laboratory

State of the Art Manufacturing

Other Industries Served

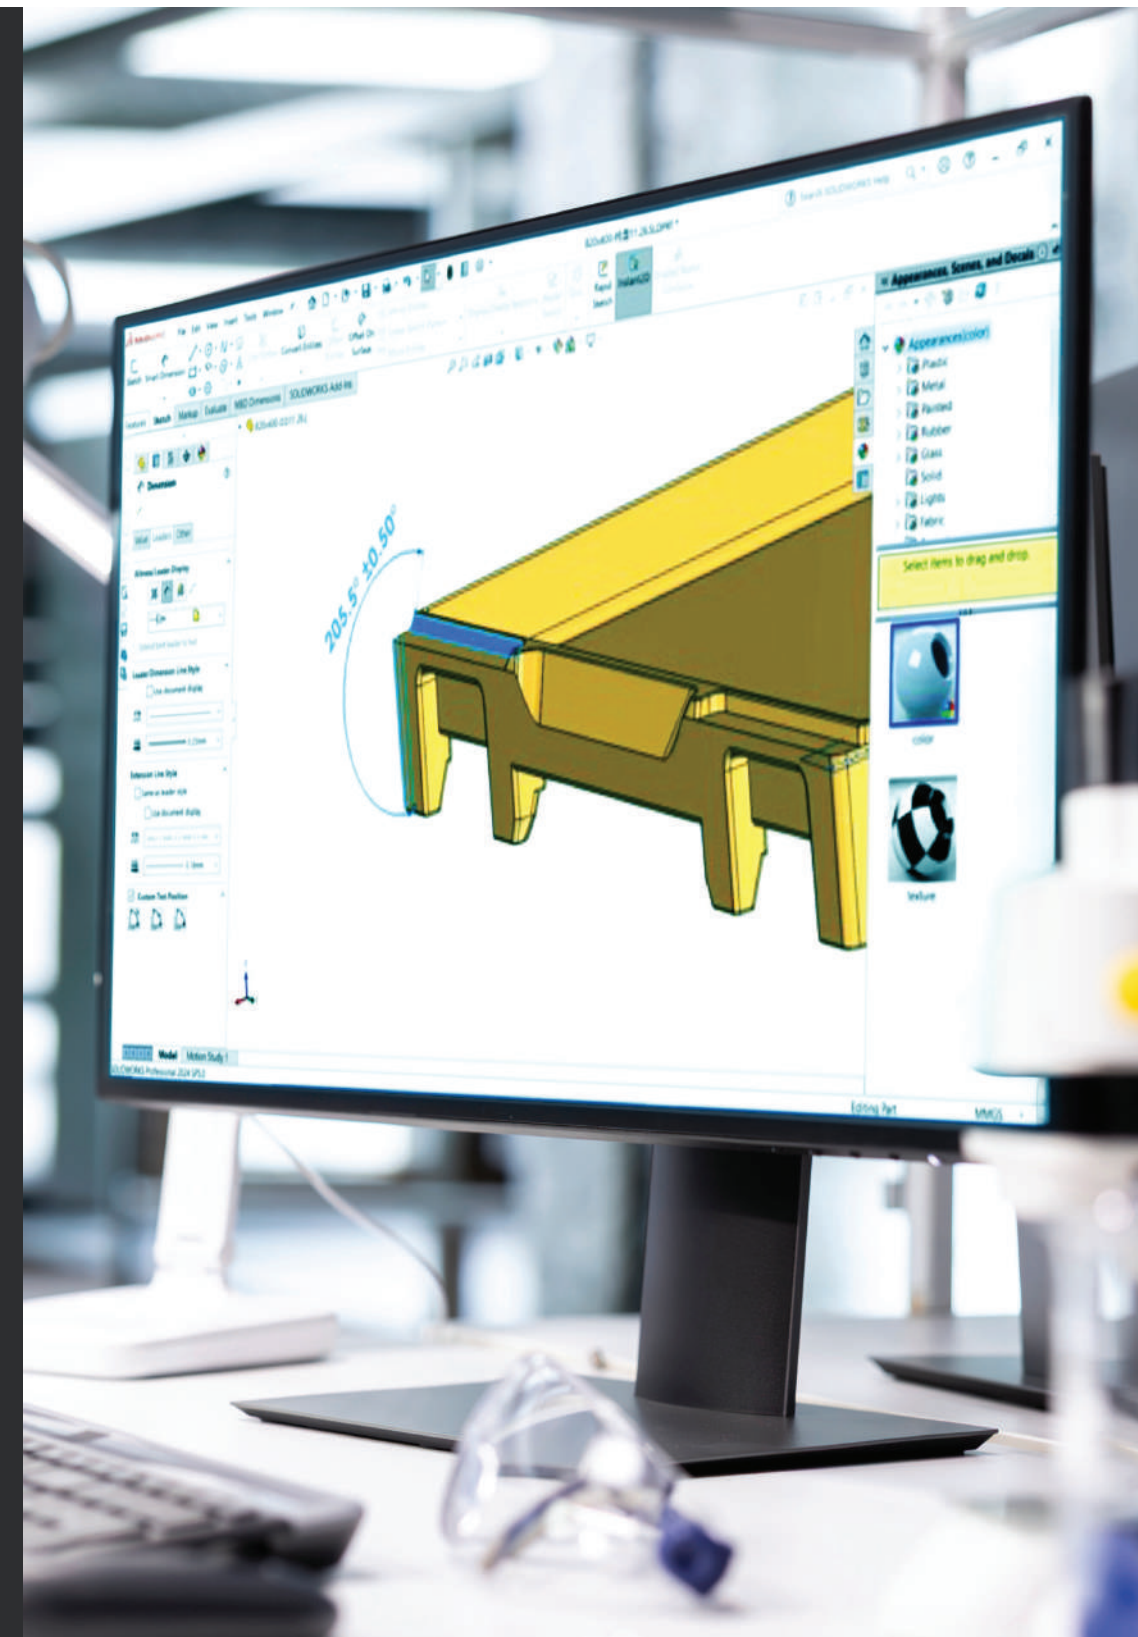

Automotive / Heavy Truck

Industrial Lighting

Mass Transit Seating

Compatible with all major mogul manufacturers including **TNA Solutions, Winkler & Dünnebier, Syntegon, Tanis,** and other leading brands.

- Proprietary materials — developed and manufactured by CME
- Full In-house compounding capability
- In-house laboratory and testing
- Food contact compliant

Complete in-house design capabilities to meet any requirement

Pharmaceutical Trays

FEATURES:

- Stackable corners - Maximise drying room capacity
- Dropped sides or ends - Promotes air circulation
- Smooth surface - Will not mark capsules
- No sharp edges - Easy handling

Chewing Gum Trays

FEATURES:

- Completely open sides for optimal air flow
- Interlocking Feet for improved stack stability
- Smooth tray surface
- Food contact approved material.
- Standard or customised design.

CME TRAYS

- Manufacturing since 1974
- Global Supply Capability
- Quality Accredited
