

## Second AZO System Successfully Installed at Sozal Kimya, Türkiye

**Vedic Pac Systems** recently installed and commissioned a second **AZO** system at **Sozal Kimya** in Bursa, Türkiye. The system includes big bag unloading unit & transfer to the extruder feeding line for **white masterbatch (TiO2)** production.

**Sozal Kimya (a member of Coroplast Group, India)**, specialises in textile chemicals, dyes, and masterbatch manufacturing, serving customers across Turkey and neighbouring regions.

Ingredients such as TiO2 are notoriously difficult to handle, and AZO's successful installation at Sozal made the choice clear for a 2nd AZO system.

Installation, commissioning, software development & programming were done by Vedic Pac Systems.
