

Chocotech Princess Candy Lab Cooker at Parle R&D Centre

Vedic Pac Systems recently completed the installation of a **Chocotech Princess Candy Lab Cooker** at **Parle R&D Centre**, Mumbai, for production of *milk & caramel candies, HBC, and jelly products*. Princess Candy has the provision to upgrade with a whipping unit type Princess Turbowhip for production of aerated products like nougatine.

Chocotech Princess Candy is a high performance semi continuous cooking system designed for accuracy & product consistency across a wide range of confectionery applications. Known for its precise temperature and moisture control, the system ensures uniform cooking conditions, which are critical for achieving consistent texture, taste, and shelf stability in confectionery products.

Princess Candy is engineered with a hygienic, robust design that allows excellent heat transfer efficiency and reliable operation, even during long production runs. Its flexibility allows manufacturers to switch between different recipes and product types with minimal downtime, making it well suited for a range of products in quick time.

Princess Candy was installed and commissioned by trained engineers from Vedic Pac Systems.

Bochang GB-6 Softgel Line at Softgel Healthcare, Chennai

Vedic Pac Systems recently completed the installation and commissioning of a **Bochang GB 6 machine** at **Softgel Healthcare**, Chennai, for production of regulatory market products like *Paracetamol, Ibuprofen, Cyclosporine, and Isotretinoin*.

BOCHANG CO., LTD.

Bochang's GB6 is a high-precision, fully automated & continuous softgel encapsulation system designed for consistent capsule weight, uniform fill accuracy, and high output stability. The machine integrates advanced control systems to monitor critical process parameters such as gelatin ribbon thickness, fill volume, and sealing conditions, ensuring repeatable product quality. GB6, with Bochang's speciality in die roll design, is also known for excellent sealing with minimum ribbon thickness.

Built to meet 21 CFR compliance, the Bochang GB6 supports electronic data recording, audit trails, and process traceability, making it well suited for regulated pharmaceutical environments. Its robust, hygienic design allows easy cleaning, reduced downtime, and reliable performance during extended production runs.

Installation and commissioning were successfully carried out by engineers from Vedic Pac Systems, ensuring smooth start-up and reliable operation of the line.
