

OKA Duplex Depositor for Cookie Production at Haldiram's

Vedic Pac Systems recently completed the installation of an **OKA Duplex Depositor**, for the production of cookies & speciality atta cookies, at **Haldiram's Snacks, Noida**.

Designed with future scalability in mind, the machine can be expanded to support marzipan (*Kaju katli* type products) applications as production requirements evolve.

OKA Duplex Depositor is a versatile, high-precision depositing solution engineered for efficient cookie and speciality bakery production. It ensures accurate and consistent depositing across a wide range of doughs, including standard cookie doughs and speciality atta-based formulations with a range of production capacities.

Installation was successfully done by Vedic Pac Systems' engineers. Commissioning and start-up were carried out jointly by specialists from OKA and Vedic Pac Systems, ensuring seamless, timely and reliable performance.

AZO Liquids BG 800 Line at Hindustan Unilever Limited

Vedic Pac Systems recently completed the installation of an **AZO Liquids BG 800** line at **Hindustan Unilever Limited (Parmann Nutritionals)**, Patna.

The line has been installed for the production of regular and eggless mayonnaise, as well as ketchup, with provision for future expansion to include jam, sauce & other masses.

AZO Liquids BG system is a semi continuous processing solution designed for the handling and processing of liquid and semi-liquid food products with medium to high capacities.

Mechanical and electrical installation was successfully done by the Vedic Pac Systems engineers.

Sun Pharma Validates Bochang GB-6 Soft Gel Line in Korea

Sun Pharma recently completed a Factory Acceptance Test (FAT) at **Bochang** in Korea on the **Bochang GB-6** machine equipped with a **tumble dryer**. During the FAT, trials were carried out using different sizes of die rolls with oil, and the machine was successfully operated at speeds of up to 5.2 rpm.

A three member team from Sun Pharma travelled to Korea for the FAT, comprising the Plant Head, General Manager (Engineering) and an Operator, accompanied by S. Venkatesh, General Manager (Services) from **Vedic Pac Systems**. The visit enabled detailed evaluation of machine performance and trial validation as per Sun Pharma's requirements.

The **Bochang GB-6** is an automatic **soft gelatin capsule encapsulation machine** designed for pharmaceutical applications. It is used for producing soft gel capsules with liquid and oil-based fills. When equipped with a **tumble dryer**, the system allows controlled drying of freshly formed capsules after encapsulation, helping stabilise the capsules before further handling.
