

Sweet Success at Rupshi, Bangladesh

Vedic Pac Systems successfully installed and commissioned a complete *jelly production line* at **Rupshi**, Bangladesh.

The project included:

- **Chocotech Carastar** for semi continuous preparation of jelly mass for outer shell.
- **Chocotech Sucrobatch** for the preparation of centre-filled jelly masses, making it ideal for *one shot* jelly products with accurate filling and superior product consistency.
- **WDS Confec ECO Jelly** line for advanced starchless jelly production. Engineered for hygienic, energy-efficient & high-speed operation. The line offers flexibility to manufacture *Centre Filled Jelly, Mono Mass: Single Colour Jelly, and One Shot: Dual Mass / Two Different Colours Jelly*, with excellent shape definition, smooth texture, and consistent product quality.

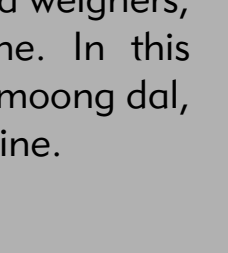

Plant is designed for universal masses i.e. it can process masses with a range of jellifying agents such as *pectin, agar agar, carrageenan* etc. The installation and commissioning were done by trained engineers from **Vedic Pac Systems**.

Loma Enhances Quality Assurance with the IQ4 Waferthin at Aakash Global

Vedic Pac Systems has successfully installed and commissioned 26 Units of **Loma IQ4 Waferthin Metal Detector** at **Aakash Global** (a member of **Haldiram Group**), Kolkata.

Loma IQ4 Waferthin Metal Detector is a compact gravity fed / throat metal detector system designed to be installed between gravity feed hoppers, multi-head weighers, and VFFS bagging machines, requiring a minimal *metal free zone*. In this application, it is used for gravity fall snacks (*Namkeens: chips, peanuts, moong dal, etc. & Mixtures*) metal detection with integration into the packing machine.

Key features of the Loma IQ4 Waferthin Metal Detector:

- 7" touchscreen with a new, easy-to-use interface
- Faster and improved auto-learn functionality
- Variable frequency for optimal detection levels
- Sealed for IP66 washdown applications
- Constructed with 304 stainless steel and lead-free materials
- Designed as per LOMA's "Designed to Survive" philosophy

The installation & commissioning was done by trained engineers from **Vedic Pac Systems**.

Vedic Pac Systems Annual Meet 2026

Vedic Pac Systems held its *Annual Meet* at The Ritz-Carlton, Pune. A day filled with energy, laughter and celebration. Team members from all our offices and locations came together to connect, unwind and celebrate the shared journey and achievements of the past year.

Mr. Lukas Zimmermann and *Mrs. Sabine Zimmermann* from **AZO** Osterburken, joined us for the occasion and truly embraced the Vedic Pac spirit, participating in the day's events with enthusiasm and warmth. They also presented awards to some of our team members in recognition of their dedication and excellence during the year.

Day was filled with memorable moments as we celebrated achievements, enjoyed engaging quizzes and games and strengthened the teamwork and spirit that continue to drive Vedic Pac Systems forward.

Some memories from the event...
